SYNTHETIC DATA / NOT A VALID LABORATORY CERTIFICATE

Northline Demonstration Bench. Fictional client, results, methods, and limits. Not an accredited document.

Report details

Report number	DEMO-AR-1001
Report id	RPT-DEMO-0001
Report date	2026-04-15
Title	Synthetic metals screen
Client	Northline Pantry Cooperative
Client reference	DEMO-PO-1001
Matrix	oil
Commodity	refined-demo-oil
Origin	Fictional Harbor District
Ordered by	Demo Purchasing Desk
Submitted by	Demo Intake Desk
Source feed	report-snapshot-v1
Source revision	json-seed-1
Template	analytical-default version 1

Sample id	Code	Matrix	Received	Results on file
DEMO-SMP-01	DEMO-SMP-01	oil	2026-04-02	9
DEMO-SMP-02	DEMO-SMP-02	oil	2026-04-02	4
DEMO-SMP-03	DEMO-SMP-03	oil	2026-04-02	2

Sample group 1 of 2. This group starts 2 new samples out of a configured maximum of 2. A long sample continues on later physical pages; this number is not a promise of one sheet.

Sample DEMO-SMP-01 code DEMO-SMP-01

Sample summary

Sample id	DEMO-SMP-01
Description	Fictional refined oil portion A.
Matrix / commodity	oil / refined-demo-oil
Sampling date	2026-04-01
Received	2026-04-02
Reception temperature	Ambient demo
Baby food	No
Organic	No

Analytical results

Metals

Sample DEMO-SMP-01 · Metals

Analyte	Result	Qualifier	Unit	LOD	LOQ	Method
Fictional lead analogue DM-PB	0.4[N1]	—	mg/kg	0.01	0.05	1
Fictional arsenic analogue DM-AS	< 0.02	<	mg/kg	0.01	0.02	1
Fictional copper analogue DM-CU	ND	ND	mg/kg	0.01	0.05	1
Fictional cadmium analogue DM-CD	1.25	—	mg/kg	0.01	0.05	1
Fictional nickel analogue DM-NI	—	—	—	—	—	1
Fictional mercury analogue DM-HG	0.02	—	mg/kg	0.005	0.01	3

Screen

Sample DEMO-SMP-01 · Screen

Analyte	Result	Qualifier	Unit	LOD	LOQ	Method
Fictional iron analogue DM-FE	Not tested	—	—	—	—	2
Fictional zinc analogue DM-ZN	0.1	—	mg/kg	0.02	0.05	2

1. N1 Result note for Fictional lead analogue on sample DEMO-SMP-01. Displayed result: 0.4 mg/kg. result RES-DEMO-SMP-01-PB

Comments for DEMO-SMP-01

Demo comment bound to sample DEMO-SMP-01 (DEMO-SMP-01). Description echo: Fictional refined oil portion A..

Text comment.oil-a 1.0.0, scope sample, sample DEMO-SMP-01

Conclusions for DEMO-SMP-01

Demo conclusion for sample DEMO-SMP-01: fictional screen complete for the listed analytes.

> Results withheld from the analytical tables for DEMO-SMP-01. They remain in the snapshot.
>
> - DM-HELD — No enabled subsection lists this analyte group.

Sample DEMO-SMP-02 code DEMO-SMP-02

Sample summary

Sample id	DEMO-SMP-02
Description	Fictional refined oil portion B.
Matrix / commodity	oil / refined-demo-oil
Sampling date	2026-04-01
Received	2026-04-02
Reception temperature	Ambient demo
Baby food	No
Organic	No

Analytical results

Metals

Sample DEMO-SMP-02 · Metals						
Analyte	**Result**	**Qualifier**	**Unit**	**LOD**	**LOQ**	**Method**
Fictional lead analogue DM-PB	4.5	—	mg/kg	0.01	0.05	1
Fictional arsenic analogue DM-AS	< 5	<	mg/kg	0.01	5	1
Fictional copper analogue DM-CU	0.2	—	mg/kg	0.01	0.05	1

Screen

Fictional tag <demo> DM-TAG	0.15	—	mg/kg	0.01	0.05	2

Comments for DEMO-SMP-02

Second sample comment for DEMO-SMP-02 only. It must not be printed on other samples.

Text comment.oil-b 1.0.0, scope sample, sample DEMO-SMP-02

Conclusions for DEMO-SMP-02

Demo conclusion for sample DEMO-SMP-02: one fictional limit is exceeded in this synthetic set.

Sample group 2 of 2. This group starts 1 new sample out of a configured maximum of 2. A long sample continues on later physical pages; this number is not a promise of one sheet.

Fictional iron analogue DM-FE	0.8	—	mg/kg	0.05	0.1	2

Comments for DEMO-SMP-03

No comment is on file for sample DEMO-SMP-03.

Conclusions for DEMO-SMP-03

No sample conclusion is on file for sample DEMO-SMP-03.

Report conclusion

Report-level conclusion for DEMO-AR-1001. It is printed once, not under each sample.

Method references

> Method notes are separate from measured results. Numbers follow the first time each method is cited, in sample and result order, and do not restart on a new page group.

1. **DEMO-MET-01** Fictional digest screen A demo-1
   A fictional bench procedure used only to show a method note beside a result. It is not a published method.
   Fictional Demo Method Index (2026), entry D-17.
   Method note for DEMO-MET-01: Fictional digest screen A. Citation: Fictional Demo Method Index (2026), entry D-17.

2. **DEMO-MET-02** Fictional screen B demo-1
   A second fictional procedure so method references can be deduplicated across samples.
   Fictional Demo Method Index (2026), entry D-18.
3. **DEMO-MET-03** Fictional trace screen C demo-1
   A third fictional procedure with no extra catalog note, so the section still lists its citation.
   Fictional Demo Method Index (2026), entry D-19.
